

## Thermal Transfer Ribbon – RESIN for Textile, color range

### || AGT Color range ||

#### Description:

Thermal transfer ribbon is specially recommended for textile printing, but it can be used also for printing on plastics. This foil is designed for printers with flat heads. RESIN requires high printing energy to provide highest level of resistance against abrasability and excellent durability against solvents and chemicals. This type of resin foil printed on textile materials is able to be washed in high temperatures, or dry cleaned, fading and ironed. AGTcolor is suitable for printers with flat heads such as Avery, Novexx, Zebra, Datamax, Intermec, Citizen, Sato and others.
